## Class Dojo Parent Permission

Dear Parents/Responsible Person,

**Class Dojo** is being implemented this year by your child's teacher. Class Dojo is a cloud based storage and communication system. This platform gives your child creative tools to capture and reflect on their learning 'in real time'. In addition, their work is then shared with their family.

Class Dojo:

- engages and provides parents/carers with a window into their child's classroom and into their learning process.
- provides students with an authentic audience to view their work.
- makes communication with their class teacher seamless
- becomes a digital portfolio record of their work at school
- provides a personalised window into your child's school day
- records student behaviour throughout the day

Parents/Responsible Person can download Class Dojo's App for iOS or android however, most web browsers can be used to view student's learning artefacts.

You will receive a notification to see, hear and respond to your child's learning. Only you have access to your own child's work and all of the content is stored securely.

Some items (such as, teacher notes, class newsletters, photos or videos of the class completing activities) can be shared to 'Everyone' in your child's class. To be able to share your child's images in class videos or photos we need your permission. By giving permission it will enable the teacher to share your child's class videos and images in an online cloud based storage system. Without permission your child will still be able to share their work and photos/video but they will be unable to participate in whole/class/group photos or videos that could be shared with other parents in the class.

If you would like your child to participate fully in using this digital online cloud storage and communication system, please complete sign below and return this letter to your child's classroom teacher.

Yours sincerely

**Chris Walker**

Principal

May 2020
